February 28, 2013

OMB BULLETIN NO. 13-01

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

SUBJECT: Revised Delineations of Metropolitan Statistical Areas, Micropolitan Statistical Areas, and Combined Statistical Areas, and Guidance on Uses of the Delineations of These Areas

1. **Purpose:** This bulletin establishes revised delineations for the Nation’s Metropolitan Statistical Areas, Micropolitan Statistical Areas, and Combined Statistical Areas. The bulletin also provides delineations of Metropolitan Divisions in those Metropolitan Statistical Areas that have a single core with a population of at least 2.5 million as well as delineations of New England City and Town Areas.

   The delineations of the statistical areas shown in the appendix’s nine lists take effect immediately. The delineations reflect the Standards for Delineating Metropolitan and Micropolitan Statistical Areas that the Office of Management and Budget (OMB) published on June 28, 2010, in the Federal Register (75 FR 37246 - 37252) and the application of those standards to Census Bureau population and journey-to-work data. This bulletin also provides guidance on the use of the delineations of these statistical areas.

2. **Background:** Pursuant to 44 U.S.C. 3504(e)(3) and 31 U.S.C. 1104(d) and Executive Order No. 10253 (June 11, 1951), OMB delineates Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, Combined Statistical Areas, and New England City and Town Areas for use in Federal statistical activities. The appendix’s lists represent the product of OMB’s once-a-decade comprehensive review of statistical area standards and delineations. OMB issues periodic updates of the areas between decennial censuses based on Census Bureau data.

3. **Update of Statistical Areas:** This bulletin provides the delineations of all Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, Combined Statistical Areas, and New England City and Town Areas in the United States and Puerto Rico based on the standards published on June 28, 2010, in the Federal Register (75 FR 37246 - 37252) and Census Bureau data. The appendix to this bulletin provides the following lists of statistical areas that are recognized under the standards:

   List 1 is an alphabetical list by title of 929 Metropolitan Statistical Areas and Micropolitan Statistical Areas in the United States and Puerto Rico.
List 2 provides titles, codes, delineations, principal cities, and Metropolitan Divisions for 388 Metropolitan Statistical Areas (381 in the United States and 7 in Puerto Rico). There are 11 Metropolitan Statistical Areas that contain a total of 31 Metropolitan Divisions. List 3 provides titles, codes, and delineations for the 31 Metropolitan Divisions within their respective Metropolitan Statistical Areas.

List 4 presents the titles, codes, delineations, and principal cities for 541 Micropolitan Statistical Areas (536 in the United States and 5 in Puerto Rico).

List 5 identifies 169 Combined Statistical Areas and their 524 component Metropolitan and/or Micropolitan Statistical Areas.

List 6 identifies in each state the Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, and Combined Statistical Areas.

List 7 provides titles, delineations, principal cities, and New England City and Town Area Divisions for 38 New England City and Town Areas.¹

List 8 provides titles and delineations for 6 Combined New England City and Town Areas and their 26 component New England City and Town Areas.

List 9 identifies in each state the New England City and Town Areas, the New England City and Town Area Divisions, and the Combined New England City and Town Areas.

A change in the standards as well as their application to new Census Bureau data has resulted in an increase in the number of Combined Statistical Areas. First introduced in the 2000 standards, Combined Statistical Areas can serve as an important geographic tool for the Federal statistical data community. They can be characterized as representing larger regions that reflect broader social and economic interactions, such as wholesaling, commodity distribution, and weekend recreation activities, and are likely to be of considerable interest to regional authorities and the private sector. If specified criteria are met, adjacent Metropolitan and Micropolitan Statistical Areas, in various combinations, may become the components of a Combined Statistical Area. It should be noted that Combined Statistical Areas complement, but do not supersede Metropolitan and Micropolitan Statistical Areas, which retain their separate component identities.

¹ Consistent use of counties in delineating metropolitan and micropolitan statistical areas makes it possible to have comparable areas across the Nation for preparing and disseminating Federal statistics. Cities and towns, however, are the primary units of local government in the six New England states, where counties generally have little or no official governmental functions. A wide variety of statistical data, from both Federal and local sources, is compiled for cities and towns in New England. OMB and its predecessor agencies have a longstanding history of delineating statistical areas on a city and town basis in the New England states.
The 2000 standards also introduced the construct "Metropolitan Division," which is used to refer to a county or group of counties within a Metropolitan Statistical Area that has a population core of at least 2.5 million. While a Metropolitan Division is a subdivision of a larger Metropolitan Statistical Area, it often functions as a distinct social, economic, and cultural area within the larger region. Metropolitan Divisions can be directly compared with each other, but comparisons of them with entire Metropolitan Statistical Areas would be inappropriate. Federal agencies will continue to provide detailed data for each Metropolitan Division.

4. **Uses of Statistical Area Delineations:** All agencies that conduct statistical activities to collect and publish data for Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, Combined Statistical Areas, and New England City and Town Areas should use the most recent delineations of these areas established by OMB.

OMB establishes and maintains the delineations of Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, Combined Statistical Areas, and New England City and Town Areas solely for statistical purposes. This classification is intended to provide nationally consistent delineations for collecting, tabulating, and publishing Federal statistics for a set of geographic areas. The Metropolitan and Micropolitan Statistical Area Standards do not equate to an urban-rural classification; many counties included in Metropolitan and Micropolitan Statistical Areas, and many other counties, contain both urban and rural territory and populations.

In periodically reviewing and revising the delineations of these areas, OMB does not take into account or attempt to anticipate any nonstatistical uses that may be made of the delineations, nor will OMB modify the delineations to meet the requirements of any nonstatistical program. Thus, OMB cautions that Metropolitan Statistical Area and Micropolitan Statistical Area delineations should not be used to develop and implement Federal, state, and local nonstatistical programs and policies without full consideration of the effects of using these delineations for such purposes. These areas should not serve as a general-purpose geographic framework for nonstatistical activities, and they may or may not be suitable for use in program funding formulas.

OMB recognizes that some legislation specifies the use of Metropolitan Statistical Areas for program purposes, including the allocation of Federal funds, and will continue to work with the Congress to clarify the foundations of these delineations and the resultant, often unintended consequences of their use for nonstatistical purposes. In cases where there is no statutory requirement and an agency elects to use the Metropolitan, Micropolitan, or Combined Statistical Area delineations in nonstatistical programs, it is the sponsoring agency's responsibility to ensure that the delineations are appropriate for such use. When an agency is publishing for comment a proposed regulation that would use the delineations for a nonstatistical purpose, the agency should seek public comment on the proposed use.

An agency using the statistical delineations in a nonstatistical program may modify the delineations, but only for the purposes of that program. In such cases, any modifications should be clearly identified as deviations from the OMB statistical area delineations in order
to avoid confusion with OMB’s official delineations of Metropolitan, Micropolitan, and Combined Statistical Areas.

5. **Lists of Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, Combined Statistical Areas, and New England City and Town Area Delineations:**
   This bulletin and its appendix that provides the nine lists of statistical areas are available electronically from the OMB web site at [http://www.whitehouse.gov/omb](http://www.whitehouse.gov/omb) -- under "Bulletins;" of note, this update, historical delineations, and other information about population statistics is available on the Census Bureau’s web site at: [http://www.census.gov/population/metro](http://www.census.gov/population/metro).

   The 2010 Standards for Delineating Metropolitan and Micropolitan Statistical Areas are available at [http://www.whitehouse.gov/omb/inforeg_statpolicy](http://www.whitehouse.gov/omb/inforeg_statpolicy).

6. **Inquiries:** Inquiries concerning the Metropolitan and Micropolitan Statistical Area Standards and the statistical uses of their delineations should be directed to Katherine K. Wallman (202-395-3093). Inquiries about uses of the statistical area delineations in program administration or regulation should be directed to the appropriate agency.

   Jeffrey D. Zients
   Deputy Director for Management

Lists 1 through 9
Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, 
Combined Statistical Areas, New England City and Town Areas, and 
Combined New England City and Town Areas

1. Brief Overview of the Classification

The Office of Management and Budget (OMB) published the Standards for Delineating Metropolitan and 
Micropolitan Statistical Areas in a Federal Register Notice (75 FR 37246 - 37252) on June 28, 2010. (The 
standards are available at http://www.whitehouse.gov/omb/inforeg_statpolicy/) That Notice also provides 
information on the public review process that preceded the adoption of the standards and an explanation 
of the key terms used in the standards. The 2010 standards replace and supersede the 2000 standards 
for defining Metropolitan and Micropolitan Statistical Areas. OMB’s 2010 standards provide for the 
identification of the following statistical areas in the United States and Puerto Rico:

- Metropolitan Statistical Areas (including Metropolitan Divisions, where applicable)
- Micropolitan Statistical Areas
- Combined Statistical Areas
- New England City and Town Areas (including New England City and Town Area Divisions, 
  where applicable)
- Combined New England City and Town Areas

Metropolitan Statistical Areas have at least one urbanized area of 50,000 or more population, plus 
adjacent territory that has a high degree of social and economic integration with the core as measured by 
commuting ties. Micropolitan Statistical Areas have at least one urban cluster of at least 10,000 but less 
than 50,000 population, plus adjacent territory that has a high degree of social and economic integration 
with the core as measured by commuting ties. Metropolitan and Micropolitan Statistical Areas are 
delineated in terms of whole counties (or equivalent entities), including in the six New England States. If 
specified criteria are met, a Metropolitan Statistical Area containing a single core with a population of 2.5 
million or more may be subdivided to form smaller groupings of counties referred to as Metropolitan 
Divisions.

The classification includes about 94 percent of the U.S. population – about 85 percent in metropolitan 
statistical areas and about 9 percent in micropolitan statistical areas. Of 3,143 counties in the United 
States, 1,167 will be in the 381 metropolitan statistical areas in the United States, and 641 counties will 
be in the 536 micropolitan statistical areas (1,335 counties are outside the classification).

In view of the importance of cities and town in New England, the 2010 standards also provide for a set 
of geographic areas that are delineated using cities and towns in the six New England states. The New 
England City and Town Areas (NECTAs) are delineated using the same criteria as Metropolitan and 
Micropolitan Statistical Areas and are identified as either metropolitan or micropolitan, based, 
respectively, on the presence of either an urbanized area of 50,000 or more population or an urban 
cluster of at least 10,000 but less than 50,000 population. If the specified criteria are met, a New England 
City and Town Area containing a single core with a population of at least 2.5 million may be subdivided to 
form smaller groupings of cities and towns referred to as New England City and Town Area Divisions.

If specified criteria are met, adjacent Metropolitan and Micropolitan Statistical Areas, in various 
combinations, may become the components of a set of complementary areas called Combined Statistical 
Areas. For instance, a Combined Statistical Area may comprise two or more Metropolitan Statistical 
Areas, a Metropolitan Statistical Area and a Micropolitan Statistical Area, two or more Micropolitan 
Statistical Areas, or multiple Metropolitan and Micropolitan Statistical Areas that have social and 
economic ties as measured by commuting, but at lower levels than are found among counties within 
Metropolitan and Micropolitan Statistical Areas. The geographic components of Combined New England 
City and Town Areas are individual metropolitan and micropolitan NECTAs, in various combinations. The
areas that combine retain their own designations as Metropolitan or Micropolitan Statistical Areas (or NECTAs) within the larger Combined Statistical Area (or Combined NECTA). Combined Statistical Areas can be characterized as representing larger regions that reflect broader social and economic interactions, such as wholesaling, commodity distribution, and weekend recreation activities, and are likely to be of considerable interest to regional authorities and the private sector.

OMB's standards provide for the identification of one or more principal cities within each Metropolitan Statistical Area, Micropolitan Statistical Area, and NECTA. Principal cities encompass both incorporated places and census designated places (CDPs). In addition to identifying the more significant places in each Metropolitan and Micropolitan Statistical Area or NECTA in terms of population and employment, principal cities also are used in titling Metropolitan and Micropolitan Statistical Areas, Metropolitan Divisions, Combined Statistical Areas, NECTAs, NECTA Divisions, and Combined NECTAs. A principal city may be only a part of a place if a portion of that place is outside of the Metropolitan Statistical Area, Micropolitan Statistical Area, or NECTA for which the place is principal.

The geographic components of Metropolitan and Micropolitan Statistical Areas and Metropolitan Divisions are counties and equivalent entities (boroughs, and a municipality in Alaska, parishes in Louisiana, municipios in Puerto Rico, and independent cities in Maryland, Missouri, Nevada, and Virginia). The counties and equivalent entities used in the delineations of the Metropolitan and Micropolitan Statistical Areas are those that were in existence as of January 1, 2010.

This appendix includes the following nine lists that provide information on the statistical areas that are recognized under the 2010 standards using data from 2010 Census and the American Community Survey.

- List 1 is an alphabetical list by title of 929 Metropolitan Statistical Areas and Micropolitan Statistical Areas in the United States and Puerto Rico.
- List 2 provides titles, codes, delineations, principal cities, and Metropolitan Divisions for 388 Metropolitan Statistical Areas (381 in the United States and 7 in Puerto Rico).
- List 3 provides titles, codes, and delineations for the 31 Metropolitan Divisions within their respective Metropolitan Statistical Areas.
- List 4 presents the titles, codes, delineations, and principal cities for 541 Micropolitan Statistical Areas (536 in the United States and 5 in Puerto Rico).
- List 5 identifies 169 Combined Statistical Areas and their 524 component Metropolitan and/or Micropolitan Statistical Areas.
- List 6 identifies in each state the Metropolitan Statistical Areas, Metropolitan Divisions, Micropolitan Statistical Areas, and Combined Statistical Areas.
- List 7 provides titles, delineations, principal cities, and New England City and Town Area Divisions for 38 New England City and Town Areas.
- List 8 provides titles and delineations for 6 Combined New England City and Town Areas and their 26 component New England City and Town Areas.
- List 9 identifies in each state the New England City and Town Areas, the New England City and Town Area Divisions, and the Combined New England City and Town Areas.
2. Guidance on Presenting Data for Metropolitan and Micropolitan Statistical Areas, Metropolitan Divisions, Combined Statistical Areas, NECTAs, NECTA Divisions, and Combined NECTAs

Metropolitan and Micropolitan Statistical Areas represent the basic set of county-based areas delineated under this classification. If specified criteria are met, Metropolitan Divisions are delineated within Metropolitan Statistical Areas that have a single core with a population of at least 2.5 million. Not all Metropolitan Statistical Areas with urbanized areas of this size will contain Metropolitan Divisions.

The criteria used to determine what counties are included in a Metropolitan Statistical Area are different from the criteria that are used to group counties in Metropolitan Divisions, which represent the subdivisions of (larger) Metropolitan Statistical Areas. As a result, it is generally not appropriate to rank or directly compare Metropolitan Divisions (or NECTA Divisions) with Metropolitan and Micropolitan Statistical Areas (or Metropolitan and Micropolitan NECTAs). However, because of the large population concentrations represented by Metropolitan Divisions, it may be desirable for some analyses, for example, to include Metropolitan Divisions in a table in which Metropolitan Statistical Areas are ranked. It would, of course, be appropriate to rank and compare Metropolitan Divisions. Even though Metropolitan Divisions represent subdivisions of (larger) Metropolitan Statistical Areas, they often function as distinct areas within Metropolitan Statistical Areas. Researchers analyzing demographic and economic patterns, trends, and processes within large Metropolitan Statistical Areas should also take into consideration data for specific Metropolitan Divisions. Research and analyses that previously made use of data for Primary Metropolitan Statistical Areas should now use data for Metropolitan Divisions.

Because Combined Statistical Areas represent groupings of Metropolitan and Micropolitan Statistical Areas (in any combination), they should not be ranked or compared with individual Metropolitan and Micropolitan Statistical Areas.

Because Combined New England City and Town Areas (NECTAs) represent groupings of Metropolitan and Micropolitan NECTAs (in any combination), they should not be ranked or compared with individual Metropolitan and Micropolitan NECTAs.

3. Codes for Metropolitan and Micropolitan Statistical Areas, Metropolitan Divisions, Combined Statistical Areas, New England City and Town Areas (NECTAs), NECTA Divisions, and Combined NECTAs

Codes for Metropolitan and Micropolitan Statistical Areas, Metropolitan Divisions, NECTAs, and NECTA Divisions are 5 digits in length. This replaces the 4-digit code previously used. Codes for Metropolitan and Micropolitan Statistical Areas and Metropolitan Divisions fall within the 10000 to 49999 range and are assigned in alphabetical order by area title. Metropolitan Divisions are distinguished by a 5-digit code ending in "4." NECTA and NECTA Division codes fall within the 70000 to 79999 range and are assigned in alphabetical order by area title. NECTA Divisions are distinguished by a 5-digit code ending in "4."

Combined Statistical Area and Combined NECTA codes are 3 digits in length. Combined Statistical Area codes fall within the 100 to 599 range. Combined NECTA codes fall within the 700 to 799 range.
List 1

Metropolitan and Micropolitan Statistical Areas

This list provides an alphabetical list by title of all 929 Metropolitan and Micropolitan Statistical Areas. The code for each Metropolitan and Micropolitan Statistical Area also is provided.

List 2

Metropolitan Statistical Areas

This list provides titles and codes, principal cities, Metropolitan Division titles and codes (where applicable), and delineations in counties and equivalent entities for all 388 Metropolitan Statistical Areas in the United States and Puerto Rico. There are 11 Metropolitan Statistical Areas that have a total of 31 Metropolitan Divisions. Central counties are shown in italics.

10180 Abilene, TX Metropolitan Statistical Area
   Principal City: Abilene
   Callahan County, Jones County, *Taylor County*

10380 Aguadilla-Isabela, PR Metropolitan Statistical Area
   Principal Cities: Aguadilla, Isabela
   *Aguada Municipio, Aguadilla Municipio, Añasco Municipio, Isabela Municipio, Lares Municipio, Moca Municipio, Rincón Municipio, San Sebastián Municipio, Utuado Municipio*

10420 Akron, OH Metropolitan Statistical Area
   Principal City: Akron
   Portage County, *Summit County*

10500 Albany, GA Metropolitan Statistical Area
   Principal City: Albany
   Baker County, *Dougherty County, Lee County, Terrell County, Worth County*

10540 Albany, OR Metropolitan Statistical Area
   Principal City: Albany
   Linn County

10580 Albany-Schenectady-Troy, NY Metropolitan Statistical Area
   Principal Cities: Albany, Schenectady, Troy
   *Albany County, Rensselaer County, Saratoga County, Schenectady County, Schoharie County*

10740 Albuquerque, NM Metropolitan Statistical Area
   Principal City: Albuquerque
   Bernalillo County, Sandoval County, Torrance County, Valencia County

10780 Alexandria, LA Metropolitan Statistical Area
   Principal City: Alexandria
   Grant Parish, *Repub Parish*

10900 Allentown-Bethlehem-Easton, PA-NJ Metropolitan Statistical Area*
   Principal Cities: Allentown, PA; Bethlehem, PA
   *Warren County, NJ; Carbon County, PA; Lehigh County, PA; Northampton County, PA*

11020 Altoona, PA Metropolitan Statistical Area
   Principal City: Altoona
   Blair County

* Pursuant to P.L. 101-136, Section 525, Easton was added to the title effective November 3, 1989.
11100 Amarillo, TX Metropolitan Statistical Area  
   Principal City: Amarillo  
   Armstrong County, Carson County, Oldham County, Potter County, Randall County

11180 Ames, IA Metropolitan Statistical Area  
   Principal City: Ames  
   Story County

11260 Anchorage, AK Metropolitan Statistical Area  
   Principal City: Anchorage  
   Anchorage Municipality, Matanuska-Susitna Borough

11460 Ann Arbor, MI Metropolitan Statistical Area  
   Principal City: Ann Arbor  
   Washtenaw County

11500 Anniston-Oxford-Jacksonville, AL Metropolitan Statistical Area  
   Principal Cities: Anniston, Oxford, Jacksonville  
   Calhoun County

11540 Appleton, WI Metropolitan Statistical Area  
   Principal City: Appleton  
   Calumet County, Outagamie County

11640 Arecibo, PR Metropolitan Statistical Area  
   Principal City: Arecibo  
   Arecibo Municipio, Camuy Municipio, Hatillo Municipio, Quebradillas Municipio
