Technical Documentation

Property Owners and Managers Survey, 1995-1996 Technical Documentation. 265 pp. \$10. Use form 2.

Data Files

Data files recently released by the Census Bureau are listed below.

They are sold by Customer Services unless otherwise noted. Use form 2.

The cost of new files on computer tape generally is based on the file size,

with the minimum charge being \$175. The files are offered on tape reels or tape cartridges.

Data files also are offered on compact disc—read-only memory (CD-ROM), a 4 3/4-inch laser disc. The price for a mass-produced CD-ROM, prepared for popular files, generally is \$150.

CD-ROM's also can be prepared on request for other data files otherwise available only on tape reel or cartridge. The cost for such CD's is the same as the cost for the tape file. The CD files are ASCII copies in the same format as on tape, and they are not accompanied by software. Since the discs are specially prepared in response to customers' requests, orders take about 2 weeks. For further information about this service, contact Customer Services.

Files available on diskette ("floppies") for IBM and compatible microcomputers also are listed.

An ever increasing variety of data files and product information (including this publication) can be accessed via the Internet. (See "How to Order" on page 5 for more information.)

Technical documentation, included with each file order, also is generally available separately. The price varies.

Free *Data Developments* booklets provide brief descriptions of most files. They may be requested from Customer Services. Use form 2.

CD-ROM Discs

To order, use form 2.

Selected Abstracts

This section features abstracts for various products released during the month or previously released products of wide interest.

Annual Survey of Communication Services: 1995 (BC-95)

Data time span—1991 through 1995.

Geographic areas covered—United States.

Subject content—This report provides detailed estimates of operating revenue and expenses for point-to-point communication services, whether by wire or radio and whether intended to be received aurally or visually. This includes telephone communications, including "cellular and other radiotelephone services"; "telegraph and other message communication"; "radio and television broadcasting stations and networks"; and "cable and other pay television services."

Current and previous year estimates and estimates of year-to-year percentage changes are shown, along with estimated coefficients of variation for dollar volume estimates and year-to-year ratios.

66 pp. 1997. \$7.50. GPO S/N 003-024-08821-5. Use form 3.

1992 Census of Governments: Volume 3, Compendium of Public Employment (GC92(3)-2)

Data time span—1992, with some comparative data since 1946.

Geographic areas covered—United States, States, and counties.

Subject content—This report summarizes public employment, payrolls, and average earnings, as of October 1992. Federal, state, and local (by type) government data are provided for such functions as national defense and international relations, postal service, education, streets and highways, health, hospitals, public welfare, fire and police protection, corrections, natural resources, utilities, financial administration, judicial and legal functions, and other governmental administration.

Data are shown by state and type of government; by population-size groups for counties, municipalities, and townships; by enrollment-size groups for school districts; and by employment-size groups for special district governments. Also included are county area distributions of local government employment and payrolls.

292 pp. 1997. \$23. GPO S/N 003-024-08818-5. Use form 3.

Looking Ahead

The products listed in this section are among those now in preparation and likely to be available by the time you receive this issue. We have included prices and stock numbers (S/N's) for printed reports if this information has already been furnished by GPO.

Ordering information for all the products listed here will be provided in future issues of MPA, or call 301-457-4100. Also, the Census Bureau's Internet site provides information online for ordering these products as they become available. See the "How to Order" section for more information.

How to Order Publications

Most Census Bureau publications are available through one of three offices: the Census Bureau's Data Preparation Division (see order form 1), the Census Bureau's Customer Services (see form 2), or the Government Printing Office (see form 3). The new publication entries in this *Monthly Product Announcement* direct you to the right source by specifying the form to use or specifying another office as the source.

As the forms indicate, both Customer Services and the Government Printing Office (GPO) accept phone or fax orders when you charge to VISA, MasterCard, or a deposit account. GPO also accepts the Discover card. Both offer express service for off-the-shelf products for an extra charge when you order by phone.

Generally, if you order 100 copies or more of a publication sent to one address, you may take a 25-percent discount.

Computer Files

To order data files, use order form 2 or order by phone or fax, unless the entry gives other instructions.

Technical documentation accompanies each file, or it often may be ordered separately, using form 2.

Files on computer tape are offered on tape reels or tape cartridges. The tape cartridges are IBM 3480 compatible (operable with StorageTek 4780 tape subsystems and Digital Equipment Corporation VAX TA90 subsystems).

When mass-produced, files on CD-ROM (compact disc—read-only memory) also are listed in the "Data Files" section earlier in this publication. Customer Services offers priority service for off-the-shelf products for an extra \$25 fee when you order by phone.

Other tape files can be produced on CD-ROM by special order for the price of the tape. See the discussion under "Data Files."

Some data files are available on diskettes for IBM and compatible microcomputers.

Online Access

Many reports and data files are accessible, in whole or in part, online through the Internet. You may reach our Internet site via these protocols:

The Complete Package!

CountyScope[™] is a customized CD-ROM that gives you virtually all the information you could want on disc for a particular county—11 different data sets in all. *Windows*-based software makes the disc easy to use.

Data are given for counties, cities, census tracts, block numbering areas, block groups, and blocks. ZIP Codes are especially well-covered in the files.

Since this is a customized product, users can have data for several counties and their subareas placed on one disc - for example, all counties in a planning region or all metro counties in a region.

The range of information is staggering. *CountyScope*[™] provides detailed files from the 1990 census and the 1992 Economic Census—plus County and ZIP Code Business Patterns and extensive geographic information as well.

You can purchase *CountyScope*[™] from Customer Services (301-457-4100; orders@census.gov).

The first *metro* county costs \$400; subsequent *metro* counties cost \$40. The first *nonmetro* county costs \$300 (if no metro county is ordered); subsequent *nonmetro* counties cost \$30.

For more information, see the April issue of MPA or contact David Shaw, Administrative and Customer Services Division (301-457-1222; david.c.shaw@ccmail.census.gov).
